Dept. of Physics.
Records, 1876-1984.
GUIDE

Cornell University, Dept. of Physics,
Records, 1876-1984.
16.3 cubic ft.

Summary: Correspondence, biographical material, clippings, photographs, notes, diagrams, publications, and other items pertaining to Cornell physics professors William A. Anthony, Frederick Bedell, Ernest G. Merritt, George S. Moler, Edward L. Nichols, and Floyd K. Richtmyer, as well as physicist Ernest Fox Nichols (Cornell University M.S. 1892); the correspondence pertains to efforts to obtain the biographical material, departmental administration, the study of physics, and other professional matters, such as the dynamo built by Anthony and Moler ca. 1875, and its exhibition at the Century of Progress International Exposition in Chicago, 1933, the establishment of the date Bedell invented his stabilized oscilloscope, and negotiations, 1926, for bringing the German Physicist, Max Born, to Cornell. Includes correspondence of Livingston Farrand and John Henry Comstock. Also, physics notebooks, 1904-1931, with research data of Edward L. Nichols, Horace L. Howes, Ernest G. Merritt, D. T. Wilber, and others on phosphorescence, fluorescence, luminescence, and spectra; scientific photographs and charts, undated typescripts on various subjects by Nichols, Howes, and Wilber, and a monograph, apparently by Nichols and his associates, on the fluorescence and afterglow of solid solutions and their luminescence when rendered incandescent by a hydrogen flame, as well as accounts, 1913-1932, pertaining to a Carnegie Institution grant for this research.

In addition, indexed department account books, 1882-1948; inventory books, 1881-1933; and a "Committee Report on Survey of Floor Area Requirements for Physics, Engineering Physics, and Astronomy for a 15-Year Period, 1947-1962," ca. 1946; and personnel records of former faculty, staff, and graduate students who were appointed to the Physics Dept. prior to 1935. Manuscript entitled "Seventy Years of Physics at Cornell," by Harvey E. Howe and Guy E. Grantham, 1958; bound typescript, "The Cornell Physics Department," by Paul Hartman, 1981, with an index; and chart of department staff, 1868-1940; and *THE CORNELL PHYSICS DEPARTMENT: RECOLLECTIONS AND A HISTORY OF SORTS, by Paul Hartman, 1984. Also administrative correspondence of the department, primarily of George S. Moler, 1893-1900.

Personnel records are restricted to permission of the Dept. of Physics.

Findings aids: Box list.

Findings aids: Personnel records have a computer file of key biographical data arranged alphabetically.

#14/22/693

Physics Department. Records, 1904-1932.

This addition includes physics notebooks (87 vols., 1904-1931) with research data of Edward L. Nichols, Horace L. Howes, Ernest G. Merritt, D.T. Wilber, and Mabel K. Slattery (later Mrs. George Paul Vincent) on phosphorescence, florescence, luminiscence, and spectra, scientific photographs and charts, undated typescripts on various subjects by Nichols, Howes and Wilber, and a monograph (562 pp. typescript carbon, undated), apparently by Nichols and his associates, on the fluorescence and after-glow of solid solutions and their luminescence when rendered incandescent by a hydrogen flame, as well as accounts (1 vol., 1913-1932) pertaining to a Carnegie Institution grant for this research. Unpublished guide available. 5 linear ft.

(FORMERLY 14/22/1008)

KJ. 3/77

Physics Department. [REDACTED] Records, 1904-1932.

Checklist, p. 1.

NOTE: I have tried to indicate whose notebooks are in each box. The notebooks do not always bear names. For each box, I have indicated the name(s) or initial(s) which appear on the notebooks within (I assume the initials stand for the authors as follows: "N"-Nichols; "H"-Howes; "M"-Merritt; "W"-Wilber.) I have also tried to indicate in general the titles or subjects of notebooks within each box. Some titles are somewhat illegible; some notebooks have no titles.

All boxes are ^{ltr.} 4", except Box 15, which is 2".

BOX 1: Notebooks (6 MSS Vols.) on fluorescence; phosphorescence; luminescence. (N&M). 1904-1909.

BOX 2: 8 MSS Vols. on the sky; phosphorescence; uranyl compounds; other topics. (Some N&M). 1909-1910.

BOX 3: 6 MSS Vols. on fluorescence; phosphorescence; tables of wave lengths. (Some N&M). 1910-1911.

BOX 4: 6 MSS Vols. on photographic methods on uranyl salts; dehydration of uranyl salts; fluorescence. (N&M, Howes). 1912-1913.

BOX 5: 6 MSS Vols. on fluorescence; spectra; uranyl salts; tabulation of series. (N&M, Howes.). 1913.

BOX 6: 6 MSS Vols. on kunzite; fluorescence of uranyl; measurements of photographs of "Cragwall" salts. (N&M, Howes.). 1913-1914.

BOX 7: 7 MSS Vols. on spectra. (N&M, Howes). 1914-1915.

BOX 8: 7 MSS Vols. of photometry; absorption of Cragwall salts; on the various Ur. Nitrate Spectra. (N&M, Howes.). 1915.

BOX 9: 6 MSS Vols. on phosphorence; fluorescence of double acetates; luminescence; luminescence of double acetates and double chlorides; luminescence of the uranyl double chloride. (Nichols, Howes). 1916-1917.

BOX 10: 6 MSS Vols. on phosphorescence; calcites; phos. of rare earths; uranyl acetates; rare earth spectra; history of light standard(s?) color photography of (illegible). (Nichols, Howes, W). 1917-1920.

BOX 11: 6 Vols. on summary of results on lumin. at high temperatures; notes on flame excitation; blue glow of oxides. (Nichols, Wilber, N&H). 1920-1922.

BOX 12: 6 MSS Vols. Study of flame spectra, flame luminescence; obs. on CG₂O₅; changes in uranyl salts in radioactivity. (Nichols, Howes, Wilber, Miss M.K. Slattery.) 1920-1925.

BOX 13: 4 MSS Vols. on uranium as an activator; rare earths; bead spectra. (Miss M.K. Slattery, Howes.). 1925-1928.

Physics Department. [REDACTED] Records, 1904-1932.

14/22/693

CHECKLIST, PAGE 2

(A) Please update description
of Box 15, per notes, 1/18/65

BOX 14: 7 MSS Vols. on Cando-luminescence; candolum. of gadolimium; modes of excitation compared. (Miss M.K. Slattery, Nichols, Howes, Frances G. Weck.) Also includes "Carnegie Institution of Washington, Research Associate, Receipts and Disbursements"--1 MSS Vol. of accounts, bank statements, cancelled checks (1913-1932) re Carnegie Grant. 1913-1928-1932.

(A) BOX 15: Photograph album containing scientific photos (spectra?); and folders of negatives, photos, charts; and loose charts. Also pamphlet, Some Studies of Metals By Means of X-Rays by S. Nishikawa and G. Asahara (repr. from Physical Review, N.S. Vol. XV, No. 1, Jan. 1920, pp. 38-45). (A) Photo album of part of S. Nishikawa and G. Asahara and dedicated to E.L. Nichols, June, 1919

BOX 16: Charts, typescripts, handwritten items pertaining to:
 "The Transformation Spectrum of the Ruby" by Nichols, Howes.
 "Studies in Luminescence" by Nichols.
 "Cathodo-Luminescence and the Luminescence of Incandescent Solids" by Nichols, Howes, Wilber.
 "Physics in 1925" by Nichols.
 "On the Active Agents in Lum. Calcites, Aragonites, and Dolomites" by ?
 A monograph "which brings together in a single volume studies by the authors and by various collaborators on: the fluorescence and after-glow of solid solutions and the luminescence of such solids when rendered incandescent by contact with a hydrogen flame." (562 pp. carbon typescript.) Authors?

The notebooks cover the period 1904-1931; the Carnegie accounts volume covers the period 1913-1932.

Physics Department. Records, c. 1876-1958.

Additional information on the following:

Born, Max, 1882-

Correspondence between Ernest Merritt and German physicist Max Born (1926) concerning the latter's accepting a position at Cornell.

Coblentz, William Weber, 1873-

A letter from Coblentz (Nov. 22, 1937) containing reminiscences of Edward Leamington Nichols.

Comstock, John Henry ('74), 1849-1931

A letter (June 17, 1919) from Comstock to Edward Leamington Nichols on the latter's retirement.

Farrand, Livingston, 1867-1939

Correspondence between Frederick Bedell, Floyd Richtmyer and President Farrand (1923) when Richtmyer was considering another job. This correspondence reveals Richtmyer was dissatisfied with aspects of his job at Cornell. Also, other letters from Farrand.

Kimball, Dexter Simpson, 1865-1952

Correspondence between Ernest Merritt and Kimball (1930) concerning the recent high rate of failures in freshman physics.

A.B.L ^{wire}, 12-28-66

Photocopy and transcript of a letter from William A. Anthony to M. M. Graves, Jan. 15, 1894.

Hartman, Paul, Cornell Physics Dept. 1984

Copies of materials, some from the the Department of Energy archives relating to Robert Oppenheimer including letter to K. D. Nichols at the U.S. Atomic Energy Commission signed by faculty and students of the Physics and Mathematics Departments regarding the investigation into Oppenheimer.

Boxes 25-31 - Personnel records of faculty, staff, and graduate students prior to 1935, with computer file of key biographical data.

Rank

Collection #14/22/693

Box 38

Contains Lab Group Theses (1960s and 1970s) and slides from the Aurora Data Center – some from the 1950s

Timeline of Faculty and Staff in the Department of Physics at Cornell University

Transcribed by Corey Ryan Earle, June 2005

Information comes from two large hand-drawn timelines removed from the Kroch Library Mezzanine, May 2005.
Photographs of timeline saved on CD, July 2005.

First timeline labeled:

The First Fifty Years of Physics in Cornell University

Drawn by G.S. Moler

Lettered by P. Mertz

Back of first timeline labeled:

#14/22/693

Top of Map Case

Second timeline labeled:

The Second Fifty Years of Physics in Cornell University

R. Spence (pencilled in small letters at bottom)

Names from 1940 to 1955 not in timeline form. Names were listed for each school year

Years represent school terms; each year begins with the fall term.

Physics Department Location Timeline

1867-1868 Morrill Hall

1868-1872 Old Wooden Chemical Laboratory

1872-1883 McGraw Hall

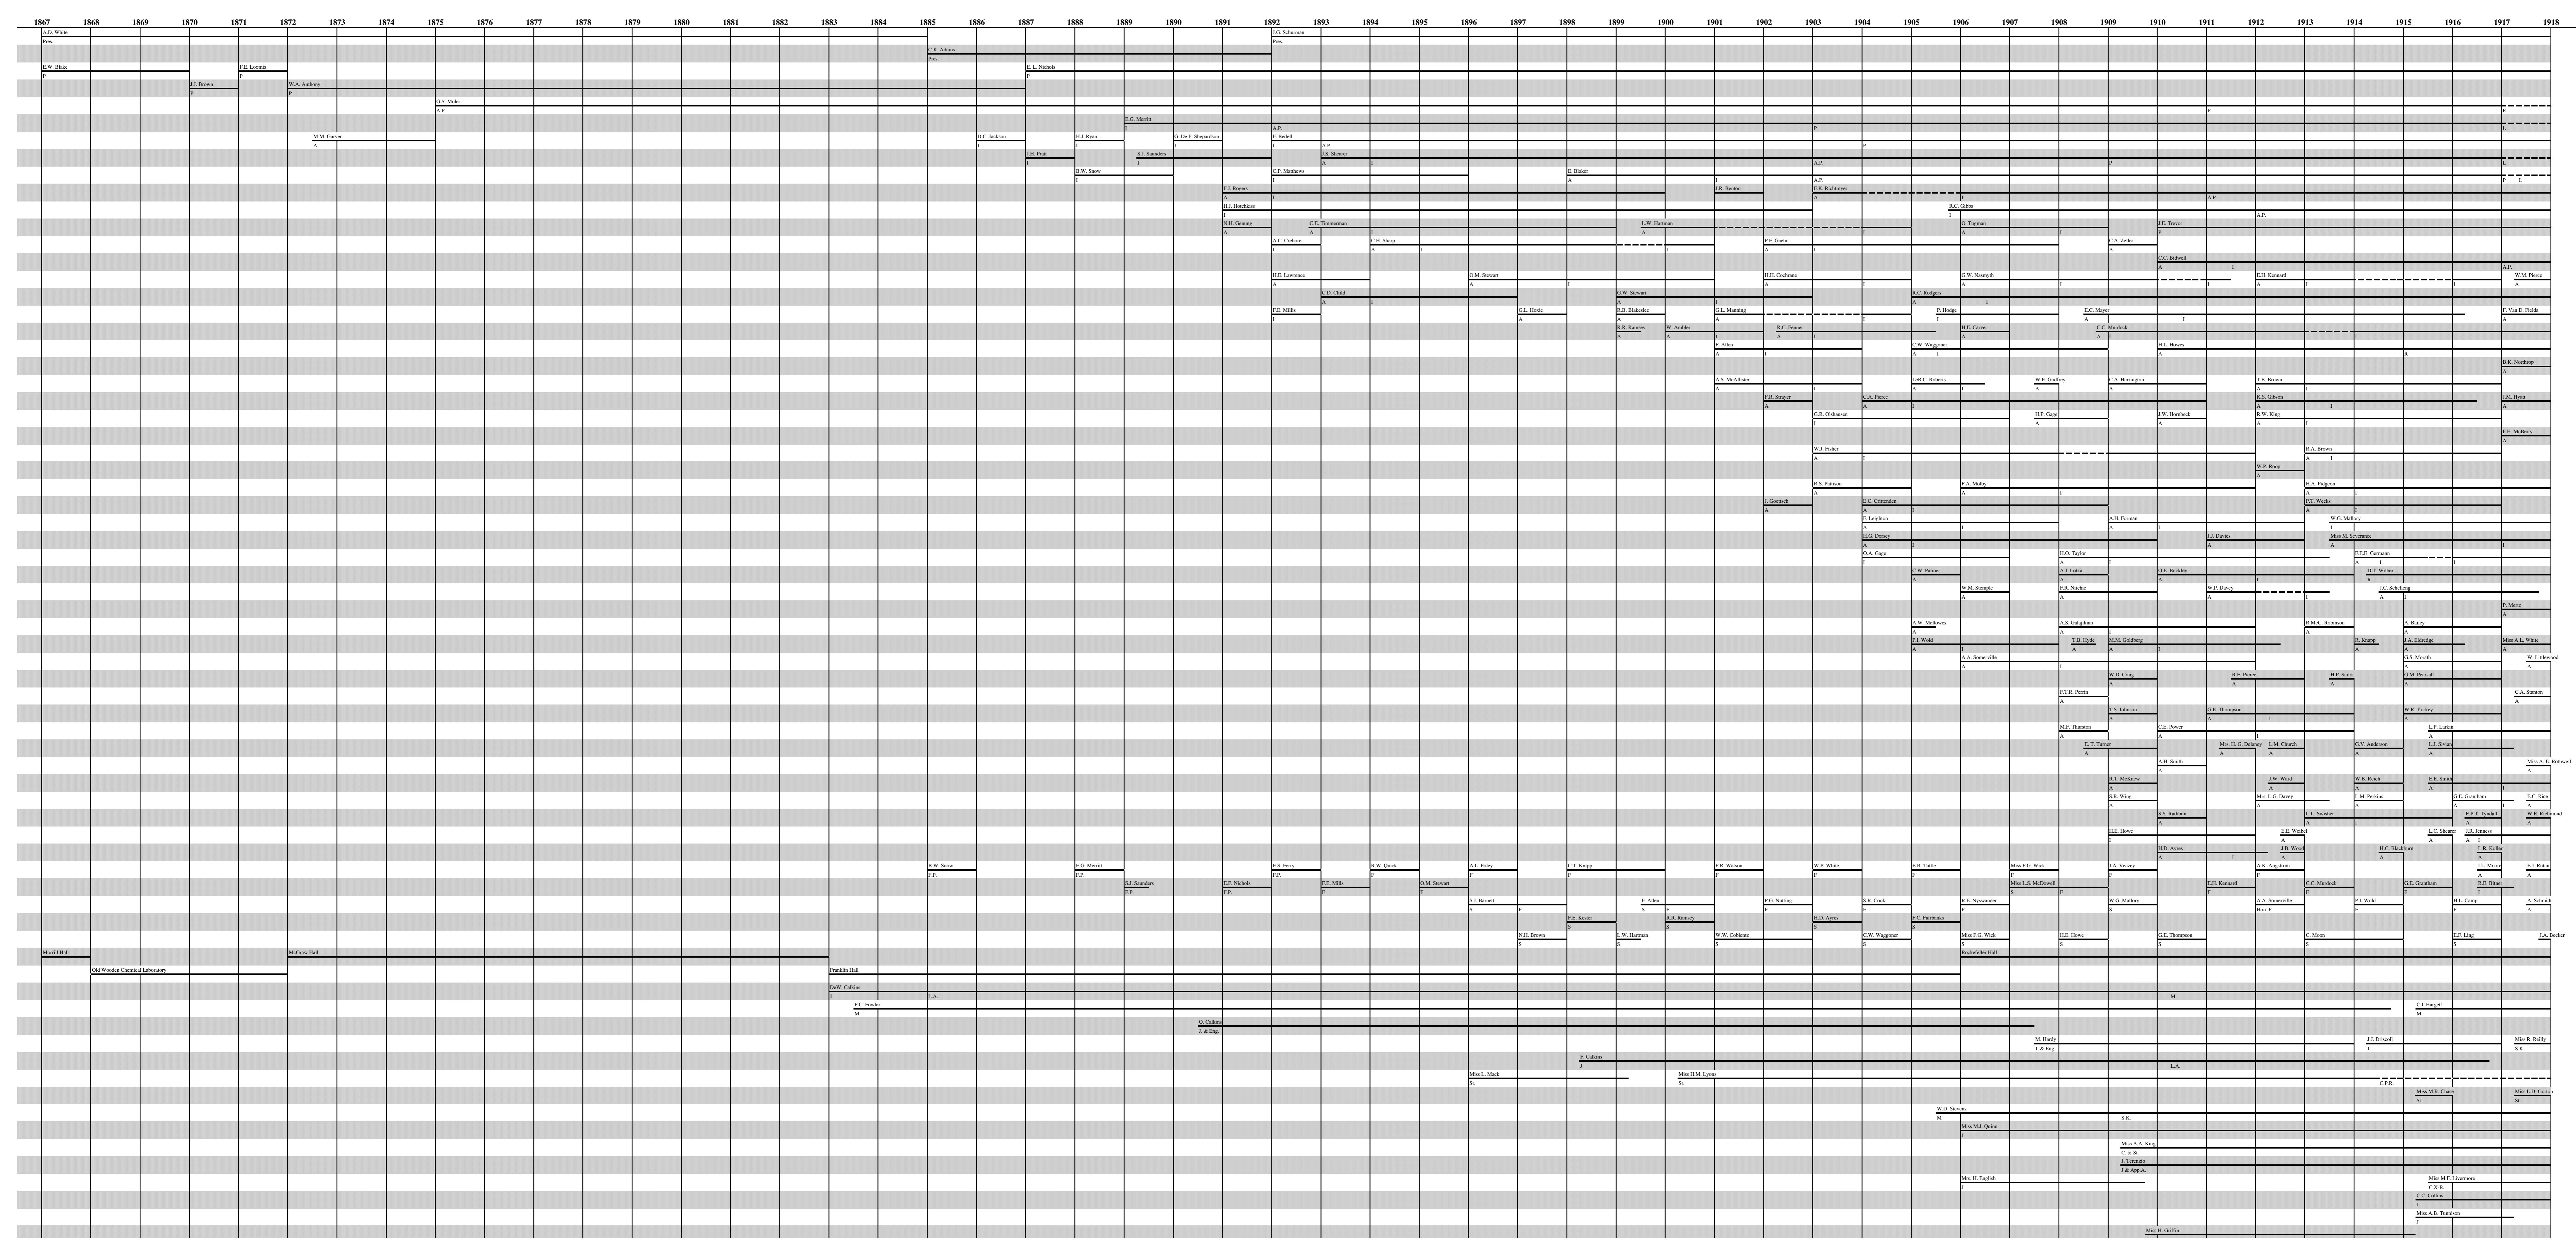

1883-1906 Franklin Hall

1906- Rockefeller Hall

Use the spreadsheet tabs at the bottom of the screen to navigate to different years.

A	Assistant
AA	Apparatus Assistant/Attendant
AAP	Acting Assistant Professor
AC	Account Clerk
AM	Assistant Mechanician
AP	Assistant Professor
AS	Administrative Secretary
Assoc. P.	Associate Professor
AAassoc. P.	Acting Associate Professor
B	Bookkeeper
C	Curator
CB	Clerk-Bookkeeper
Cl	Clerk
CO	Control Operator
C-T	Clerk-Typist
CW	Circuit Wireman
D	Draftsman
D-T	Development Technician
E	Engineer
EM	Experimental Machinist/Mechanician
ET	Electronics Technician
ESF	Electronics Shop Foreman
Ex. O.	Executive Officer
F	Fellow
FI	Faculty Instructor
GA	Graduate Student
GB	Glassblower
GCA	Geiger Counter Assembler
GS	Graduate Student
GT	Glassware Technician
HF	Honorary Fellow
HS	Head Stockkeeper
I	Instructor
IM	Instrument Maker
IT	Instrument Technician
JET	Junior Electronics Technician
JC	Junior Computer
JD	Junior Draftsman
JM	Junior Machinist/Mechanician
JST	Junior Synchrotron Technician
LA	Lecture Assistant/Attendant
LabA	Laboratory Assistant
LT	Laboratory Technician
M	Machinist/Mechanician
MSF	Machine Shop Foreman
MSS	Machine Shop Supervisor
MST	Machine Shop Technician
P	Professor
PE	Professor Emeritus
PS	Procurement Supervisor
RA	Research Assistant
RD	Resident Doctor
Res. Assoc.	Research Associate
S	Secretary
SA	Stockroom Assistant/Attendant
