Allen, Arthur A. (Arthur Augustus), 1885-1964.
Papers, 1899-1968, 1899-1964(bulk).
65.5 cubic ft.

Ornithologist.

Arthur Augustus Allen graduated from Cornell University in 1907, received an M.A. in 1908, and a Ph.D. in 1911. He served as professor of ornithology at Cornell University from 1916 until his appointment as professor emeritus in 1953. In 1919, he taught the first wildlife conservation course in the United States. Allen wrote for magazines and journals, and authored several books, including THE BOOK OF BIRD LIFE, 1930; AMERICAN BIRD BIOGRAPHIES, 1934; ORNITHOLOGICAL LABORATORY NOTEBOOK, 1936, 1941; THE GOLDEN PLOVER AND OTHER BIRDS, 1939; as well as phonograph records and book sets from 1940 to 1964.

Summary: Papers consist largely of professional correspondence, his notes as a student, course and departmental files, field notes and bird observation charts, manuscripts of his articles and books, unpublished papers and reprints by other ornithologists, tape recordings, phonograph records and recordmasters, slides, glass plate negatives, lantern slides, photographs and films; topics documented include bird-banding, bird identification, slide and record sales, advice to prospective and former graduate students, lecture engagements and tours, professional meetings of organizations such as the American Ornithologists' Union and the American Game Association (American Game Protective and Propagation Association), his expeditions to Panama, Hudson Bay, Labrador, Mexico and Alaska, wildlife conservation and game management, his friendship with Louis Agassiz Fuertes, his fifteen-year study of the ruffed grouse in captivity, his study of the ivory-billed woodpecker, and the acquisition, design, building, and operation of the Laboratory of Ornithology, Cornell University. Also included are personal papers, primarily correspondence with Elsa Guerdrum, whom he married in 1913, as well as correspondence with other family members, and genealogical tables of the Allen family.

Index to the Arthur A. Allen Papers

Introduction

The papers of Arthur A. Allen consist of personal and professional correspondence, business correspondence, slides, photographs, and files concerning his research and teaching. His student records were donated to the Department of Manuscripts and University Archives in 1964 by members of his family; most of the collection was donated by his children, Constance, David, Glen, Phebe, and Prudence in 1969; and the Laboratory of Ornithology presented additional field notes, bird observation charts, professional papers, and photographs.

The papers reflect the broad range of interests of Arthur A. Allen, one of the first professors of ornithology. Instrumental in the development of a graduate program in ornithology at Cornell in 1915, Allen remained active in the programs of the Laboratory of Ornithology at Sapsucker Woods until his death in 1964. This extensive collection, 64 cubic feet in volume, documents his varied ornithological interests including bird banding, bird identification, a fifteen-year study of raising ruffed grouse in captivity, research concerning the ivory-billed woodpecker, and his friendship and collaboration with other leading ornithologists and naturalists.

The Arthur A. Allen Papers have been divided into personal and professional sections, subdivided by record type or topic. In most cases subdivisions, series and subseries, are arranged chronologically.

Major correspondence series are then arranged alphabetically, prior to 1925 by sender and subsequently by institution. For example, until 1925, letters from A. T. Fisher and W. C. Henderson are filed under their names, thereafter under USDA Bureau of Biological Survey. While the collection is organized by subgroup, series, and subseries, the index provides comprehensive access to related documents throughout the collection.

Scope and Content of Collection

Subgroup 1: Personal Papers

Series 1: Personal Documents

This series contains student memorabilia from Buffalo High School and Cornell University student notebooks. It also includes awards given to Allen, review articles about his work, legal documents, retirement banquet mementos, and a file card index to books. 1899-1968.

Series 2: Allen Family Genealogy and Papers

Family papers include a photograph of a request for letters of marque and reprisal and a photograph of instructions concerning the practice of privateering, 1778; personal correspondence of family members; Cornell University student zoology notebooks of Anna Allen (Wright); genealogical charts; and family photographs. 1880-1959.

Series 3: Family Documents

Subseries 1: Personal Photographs

Allen's avid interest in photography is reflected in photographs that document his undergraduate activities at Cornell University, his children, his friends, and his activities as a professor at Cornell. 1887-1964

Subseries 2: Personal Papers -- Children

This series contains schoolwork (exams, compositions and reports) from Allen's children and some letters to them. 1922-1967.

Series 4: Correspondence

Subseries 1: Personal Correspondence

The personal correspondence in the Allen Papers includes correspondence with family and friends and announcements and Christmas cards, many of which were designed by members of the Allen family. Most of the early correspondence is between Allen and Elsa Guerdrum during their courtship. After their marriage in 1913, they were often apart; at those times they corresponded frequently, sometimes daily.

Members of Allen's family represented in the correspondence include his parents, Anna Maria and Daniel Williams Allen and his

mother-in-law and father-in-law, Laura and O. W. Guerdrum. Also included is correspondence between Allen and his brothers and sisters, Howard, Charlotte, and William, his children, Constance, Elsie, Glen, Phebe, David, and Prudence, and their families.

Other correspondents include close friends, Leon (Augie) and Ethel Houseman, John H. Stephenson (JHS), Elin K. Kraemer (Auntie), Aunt Peggy (a family friend), Anna and Albert Hazen Wright, Caroline (Carrie) and Frederick Dunham, Catherine (Treena) Moore, and Harry L. Sharp. The correspondence after Allen's death concerns legal matters and the selection of recipients of the Allen Award. 1909-1965

Subseries 2: Business Correspondence

Business correspondence is arranged chronologically by year and within the year alphabetically. It begins in 1913 and is usually directed to people who were active in bird photography or ornithology, either as professionals or amateurs. Often Allen exchanged photos with his correspondents, at other times they paid for photographic work. Following publication of articles by Allen in the National Geographic Magazine in June, 1937, he produced 2" by 2" Kodachrome slides of birds which he offered for sale. A mailing list, bills, and other documentation for this personal business is included. 1913-1964.

Subgroup 2: Professional Records

Series 1: Professional Papers

Professional papers have been maintained as Allen filed them, with series of general correspondence; a daily file; and files relating to lecture engagements, Louis Agassiz Fuertes, and ruffed grouse.

Subseries 1: General Correspondence

General correspondence is the largest component of the professional records. See List of Major Professional Correspondents pp. 20-21.

This correspondence documents a variety of ornithological interests: bird banding; nest identification; bird identification; requests for book titles and pamphlets; questions about cameras, slides, movies, and records; grouse; game management; conservation projects with Cornell, New York State Conservation Department, United States Department of the Interior, Bureau of Biological Survey, and 4-H Clubs; conservation education; conservation of natural resources; inquiries from prospective

graduate students; extension; internal department affairs; Sapsucker Woods; publishers; requests for slides and records from private individuals, groups, and magazines; lecture engagements and tours; expeditions; conferences; organizations; Junior Audubon Clubs; Cayuga Bird Club; Boy Scouts; and communication from former students. Subjects covered in special categories include Sapsucker Woods, grouse, extension, internal department affairs, lectures and tours, and personal business.

There is extensive documentation of Allen's expeditions and other travel. The papers include itineraries for trips with fellow ornithologist, Peter Paul Kellogg; documentation about a 1939 southwestern expedition; extensive correspondence with Jack Miner, who established a famous bird sanctuary in Kingsville, Ontario; and correspondence with Richard Kleberg about Allen's research at the King Ranch in Texas.

Letters from organizations were filed either by the name of the organization or by the last name of the person writing the letter. (See List of Selected Organizations and Associated Individuals p. 22). These letters generally concern routine ornithological interests, conferences, conservation, conservation legislation, lectures, and reports. Similar material is also filed in Series 3, Organizations. 1908-1968

Subseries 2: Daily File

This file, wholly carbon copies, partially duplicates outgoing letters in the general correspondence series. It is arranged in chronological sequence without alphabetical subdivision. 1946-1953.

Subseries 3: Engagements

Beginning in 1922 Allen worked to popularize ornithology by lecturing to schools, garden clubs, Rotary Clubs, sportsmen's clubs, museums, and other organizations. The file consists mainly of routine correspondence pertaining to these speaking engagements. 1919-1961

Subseries 4: Louis Agassiz Fuertes

Allen's friendship with Fuertes is documented by correspondence beginning in 1913 and ending with Fuertes's death in 1927. Allen delivered the eulogy at Fuertes' funeral and worked to secure recognition for the artist. He was instrumental in creating the Fuertes Bird Sanctuary at Stewart Park in Ithaca. The collection contains many letters from ornithologists about the loss of Fuertes. Also included is correspondence with Mary

Fuertes Boynton, Fuertes' daughter, and a comparative vocabulary notebook (1869-1870) for two Mexican Indian languages kept by Fuertes' father, Cornell professor of engineering, Estevan A. Fuertes. 1869-1970

Subseries 5: Grouse

Beginning in 1919, Allen did extensive experimentation in the raising of ruffed grouse. By 1932 he had proven that the grouse could be raised in captivity. Correspondence documents the activity and its recognition by conservationists, especially after 1924. There is also a large amount of correspondence relating to the grouse projects in the general correspondence (subgroup 2, series 1, subseries 1). 1905-1959

Series 2: Field Documents

Subseries 1: Field Notes

These journals and lists of bird observations, largely domestic, are arranged chronologically. 1910-1939

Subseries 2: Study and Expedition Journals

The journals describe Allen's numerous foreign and domestic expeditions. Detailed daily entries convey colorful impressions of people, places, and wildlife. 1911-1950

Series 3: Organizations

This series contains notes, lists, pamphlets, correspondence, articles, membership cards, permits, certificates, programs, constitutions, bylaws, and reports from numerous organizations with which Allen was associated. 1908-1964

Series 4: Wildlife Refuge Creation

Allen's concern with the creation of wildlife sanctuaries including Montezuma National Wildlife Refuge, Connecticut Hill Game Refuge, and Sapsucker Woods Bird Sanctuary is documented by correspondence with organizations including International Committee for Bird Preservation, New York State Conservation Department, Izaak Walton League of America, the New York State Conservation Council, the United States Department of the Interior, and Golf Club Bird Sanctuaries Committee of the National Association of Audubon Societies, as well as numerous individuals. Material on Sapsucker Woods includes correspondence, scientific and business records, and publications. 1882-1966

Series 5: Manuscripts and Reprints by Allen

Between 1908 and 1963, Allen published short reports in Bird Lore's School Department, articles for numerous journals and magazines, and entries for Grolier's and Collier's encyclopedias. Proofs and reprints of these articles and other papers are included. 1908-1963

Series 6: Course Outlines and Lecture Notes

Allen taught zoology and ornithology courses at Cornell from 1912 to 1952. This series includes lecture notes, course outlines, class rolls, student papers, and examinations from these courses. 1912-1952

Series 7: College Related Records

Also relating to Allen's work at the New York State College of Agriculture are reports on wildlife conservation and management; Ornithology Laboratory annual reports and information requests, entomology state project reports, and extension reports. There are annual reports, budgets, department organization information, applications, placement information, and material on degree candidates and prospective students from the Zoology Department, the Ornithology Division of the Zoology Department, and the Ornithology Department. 1922-1952

Series 8: Radio Talks

In addition to lecturing, Allen sought to popularize ornithology on a radio program, "Know Your Birds." Accompanying the transcripts are answers to questions from listeners; many of these replies were prepared by Peter Paul Kellogg. 1930-1941

Series 9: Papers and Reprints by Others

Allen collected articles by other ornithologists. This series includes papers and reprints from his collection. 1873-1968

Series 10: Audiovisual Records

Arthur A. Allen was actively involved in experimenting with and using special media for ornithological research. The audiovisual component of the collection includes separate subseries for photographs and sketches, motion picture film clips, glass negatives, phonograph records and booklets, tape recordings, motion pictures, and glass slides. 1897-1963

Use of Index

A. Directions

The Arthur A. Allen Papers have been arranged into subgroups, series, and subseries, on the basis of provenance, subject, or record type. This organization, which is reflected in the preceding narrative description, provides basic access and reflects contextual relationships. To provide integrated access to the collection, a comprehensive index has been prepared. The index is alphabetically arranged by personal names, organizational titles, geographic locations, subjects, and audiovisual record types. The following section explains the format and use of the index.

KEYWORDS: Personal names, organizational names, geographic places, audiovisual record types, and subjects are listed alphabetically. Under each keyword, folder references are listed chronologically. Personal name entries include writers, recipients, and, in rare cases, subjects of correspondence. The names of married women appear with their family name as a middle initial. Allen's daughters are indexed by their maiden names. Allen's name is only indexed as a subject. For corporate and organizational titles, common acronyms or abbreviations as listed on p. 23 and pp. 24-25 have been used. Geographic keywords use U.S. Postal abbreviations, listed on pp. 26-27.

Letters from organizations may be indexed by the organization or by the last name of the writer. Therefore, refer to both organizational names and names of individuals associated with them. No attempt has been made to include names of specific individuals, organizations, or places connected with Allen's speaking engagements. This material is indexed under "Speaking Engagements." Magazine articles are indexed by subject and, in some cases, by title. Lecture notes are indexed by their subjects and by the term "Courses." Collected articles and reprints are indexed by author only. Audiovisual material is indexed by record type. Bird names are not inverted. Subjects related to birds are entered under "Bird" e.g., nests will appear as "Bird - Nests."

To verify bird names the following publications have been consulted: A Field Guide to the Birds by Roger Tory Peterson, the American Ornithological Union's Birdlists, 1967, and Tropical Birds by Ernst Peter Edwards.

TITLE: Folder titles describe the general subject of the material in the folder, with inclusive dates. In the series containing published material, titles of articles are used as folder titles.

ORDER: The order specifies intellectual and physical arrangement within the collection by subgroup, series, subseries, container, and file unit. A folder identified as 2 02 02 120 17 is in subgroup 2, series 2, subseries 2, container 120, file unit 17.

LVL: The level indicates the level of specificity with which the collection has been analyzed. In this index, level 6 refers to the file unit level, i.e., file units such as folders or drawers are described and indexed as a unit. Level 5 refers to the container level, e.g., boxes or reels of movie film are described and indexed as a unit.

To use the index, find the desired term in the keyword listing. A researcher interested in Wilder D. Bancroft would learn that items to, from, or about Bancroft, dated 1931, can be found in a folder titled "Professional Correspondence Ba-Bi," located in subgroup 2, series 1, subseries 1, box 47, folder 13. Items to, from, or about Bancroft, dated 1942, can be found in a folder titled "Professional Correspondence," located in subgroup 2, series 1, subseries 1, box 73, folder 9. The researcher would then request box 47, folder 13, and box 73, folder 9, and go through these folders to find the specific item or items pertaining to Bancroft.
