Confidentiality

Most of these records were taken with an explicit or implicit understanding that they would be confidential. Consequently individuals named in the records may not be cited until 80 years after the record was created.

An index listing theses and publications derived from these records is available.

The collection is housed as microfilm, boxed records, and unboxed records in binders. Identifications without an asterisk refer to microfilm, * refers to box numbers, while ** refers to unboxed, oversized volumes. For items with a box # in column 3 the number of volumes is listed after subject entry. The records of a given survey may be any combination of these forms.
